

Jane Developer

jane@example.com | github.com/janedev | Berlin, Germany

Summary

Full-stack software engineer with 4 years of experience building scalable web applications using Java, Spring Boot, React, and PostgreSQL. Comfortable across the stack, from REST API design to Docker and Kubernetes deployments on AWS.

Skills

Languages: Java, Python, JavaScript, TypeScript, SQL

Frameworks: Spring Boot, React, Next.js, Django, Flask

Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

DevOps: Docker, Kubernetes, Terraform, AWS, GitHub Actions, CI/CD

Other: REST, GraphQL, Kafka, Git, NLP, Machine Learning

Experience

Backend Engineer — Acme Corp, Berlin (2022 – present)

Built microservices in Java and Spring Boot, deployed on Kubernetes. Introduced Kafka for async order processing, cutting p99 latency by 40%. Set up CI/CD pipelines with GitHub Actions and Terraform-managed AWS infrastructure.

Junior Developer — StartupXYZ, Remote (2020 – 2022)

Developed REST APIs with Django and Flask, integrated PostgreSQL and Redis caching. Contributed to a React + Next.js front end and helped migrate the monolith to Docker containers.

Education

B.Sc. Computer Science — Technical University of Berlin, 2020
